PROJECTS

EventPro-Control

- "EventPro Control" is a Django-based event management application that leverages Django REST Framework (DRF) for API interactions and integrates with an Android app developed in Android Studio.
- It aims to streamline the management of college events by providing functionalities for event creation, listing, and detailed views

E-Commerce Website

- Developed an e-commerce website using the MERN stack.
- Styled the site with Tailwind CSS for a clean, responsive design.
- Implemented key features including product details Page, user accounts, and Admin Page

SKILLS

React.js, Rest API, React Native, Node.js, Express.js, Android, Django Rest Framework, MongoDB, Tailwind css, Javascript, Kotlin, Postgresql, Git, TypeScript, Figma
